The NB Center for American Automotive Heritage

The NB Center for American Automotive Heritage is an institution dedicated to preserving America’s automotive heritage through its commitment to craftsmanship, education, and good stewardship. Located on 27 acres in east Allentown on the site of the former Boulevard Drive-In Theater, the many buildings of this private facility not only provide a home to over 150 vintage American automobiles, they house restoration shops with experienced craftsmen and their young interns and apprentices. It features a dedicated track for this ready to-be-driven collection. Another very important part of The NB Center is the Historic Vehicle Association’s National Laboratory. Additionally, to share the collection with other enthusiasts and those who will enjoy them, The NB Center automobiles continue to be displayed at public car shows and events, as well as on loan to various institutions.

AACA is very grateful to Nicola Bulgari, Keith Flickinger and Christina Gaeta for all their help and hospitality in bringing this event to fruition.

The tour lasts approximately one hour. Sign up will be through the registration card and cost is $3.00 per person. During the day, Martin tours are on a first-come, first-served basis and may be very difficult to get in on a timely basis. Those tours are free-of-charge.
